

# Recommended For Complete Web Development Course

## What is Web Development?

surnalym@gmail.com

**Creating websites using coding languages for online viewing**

- Web Developers built those sites, making sure they functioned properly and performed in ways that allowed for a great user experience.
- Web Developers do this by writing lines of code, using a variety of programming languages, which vary depending on the tasks they are performing and the platforms they are working on.

## 5-web vs software development
